

Vacuum Dreamer

I'm a vacuum dreamer born when the times
Are changin' and far from mine
Just take a look at the sky...

This world forgive all the killers
But don't forgive a dreamer
A crime too much greater...

The vacuum dreamer walk alone
Sometimes needs someone
Talkin' about the good time gone...

Someone to love
Someone to hurt
Someone to kiss and take apart
From all the pain and reality...

But when the things are tough for a dreamer
Can be hard in the space of a life
You born, live, love and die...

Live let die, one more time...
